

MEGASLIM™ T6

MEGASLIM™ T6

THIN PORCELAIN PANELS

FEATURES

- Extra large panels sizes, from 3200x1600 to 1200x1200*
- Thickness from 5.5mm to 6.5mm*
- Highly compacted porcelain stoneware
- Light weight thin panels
- Resistant to fungi
- Resistant to UV light
- Resistant to high heat
- Easily cut and drill on site
- Easy to clean and maintain

APPLICATIONS

- Suitable for internal and external use
- Suitable for wet areas
- Suitable for Bench Tops, Vanities, Splashback and Feature walls
- Can be easily cut or drilled on site
- Special sizes and formats can be manufactured on request

* Sizes and thickness subject to colour selection
Panels are supplied randomly, no selection possible

TECHNICAL DETAILS OF PORCELAIN PANELS:

	Standards limits	Product values	Standards
 Water Absorption	≤ 0.5%	≤ 0.2%	ISO 10545-3
 Module of Rupture	≥ 35 N/mm ²	≥ 50 N/mm ²	ISO 10545-4
 Frost Resistance	Resistant	Resistant	ISO 10545-12
 Thermal Shock Resistance	Resistant	Resistant	ISO 10545-9
 Deep Abrasion Resistance	≤ 175 mm ³	Compliant	ISO 10545-6
 Chemical Resistance	UB	ULB; UHB	ISO 10545-13
 Stain Resistance	Class 3 (min)	Class 4	ISO 10545-14
 Colour Resistance	Resistant	Resistant	DIN 51094

PLATFORM SURFACE APPLICATION

Kitchen counter, bathroom surface and water channel

DECORATIVE FINISH OF FURNITURE

Desk, table and cabinet

INTERIOR DECORATION

Window board, wall surface, fire plate

BUILDING FACADES

FLOOR AND WALL SURFACE

DOORS, SLIDING WALLS

SUPERSIZE (EASY FOR CUTTING AND INSTALLING)

STAIN RESISTANCE

EASY TO CLEAN AND MAINTAIN

FUNGI AND MOULD RESISTANCE

RESISTANT TO HIGH TEMPERATURES

RESISTANT TO FREEZE-THAW

AVAILABLE FOR INDOOR AND OUTDOOR APPLICATIONS

SUITABLE FOR TOUCH WITH FOOD STUFFS

HIGH UV RESISTANCE

RESISTANT TO HUMIDITY

RESISTANT TO HOUSEHOLD CHEMICALS

LOW WATER ABSORPTION

MEGASLIM CARE AND MAINTENANCE

The Megaslim[®] Porcelain Panels are high quality non porous product that are stain, heat and highly scratch resistant requiring minimum maintenance. Spills should be cleaned using a common household detergents and then rinsed with clean water. Do not use as a chopping board.

Routine cleaning - the best method to minimise stubborn stains is to immediately wash away stains such as red wine, food, oil or corrosive drinks by using warm water and with small quantities of a mild and nonabrasive household cleaner. Use a soft nonabrasive cloth. Do not use cleaners that have high alkaline or acidic pH levels, such as oven, or drain cleaners. Avoid acid or any of its combination especially on polished surfaces.

Stubborn stains - for stubborn stains use a nonabrasive cleaning product, micro-fibre sponge or normal house cleaning products that are cream based. To remove other hard substances that may adhere to surfaces always use a plastic scraper to gently remove material. Avoid the use of industrial and harsh chemicals on the surface of material, such as paints, paint strippers, permanent markers and inks.

Heat resistant - although Megaslim[®] is thermal shock resistant, it is always advisable to use a heat mat or similar as a normal practice when placing hot pots on these surfaces.

Scratch resistant - Megaslim[®] panels have a very hard surface and will easily withstand daily normal use. We though recommend to use cutting boards and avoid sliding heavy metallic objects along the surface.
